It would also need to commit to funding the delivery of Temple Quarter masterplan objectives as well as a commitment to secure HIF funding for house building in Hengrove.</li> <li>• As the major city within this combined authority, representing around 2/3rds of the region's economy, Bristol's role is essential to driving the economy, jobs and opportunities for the whole region – and this needs to be reflected in how resources are allocated within the Combined Authority.</li> <li>• Any new settlement must recognise Bristol's status as core city in WECA decision making and shovel ready projects, which have the greatest impact on regional growth and deprivation, should form the basis on how funding is allocated going forward.</li> <li>• We share many of ambitions and goals of regional partners and we will continue to work closely with North Somerset, but without a significant financial offer from Government which would support the delivery of regional projects in Bristol, we won't be able to recommend the proposals to the people of Bristol.</li> </ul>
